

Your Household  
Just Got Smarter!

*Hi, I'm Max.*

**The Original  
Home Surveillance  
Robot Vacuum**

### **Advanced Intelligent Vision**

My TIRVS (Trifo Intelligent Robotics Vision System) is a combination of proprietary algorithms and the latest decision-making, sensing, and perception technology. It ensures that I always know where I am and what the most efficient cleaning route will be. I can maneuver around obstacles and create a map to repeat for my next cleaning trips.

## AI-powered Surveillance

I can patrol my home at scheduled times, and inform my family about movement, people, and unusual sounds. My family can set up alert notifications and trigger automatic video recording through the Trifo Home App. In one scenario, if my family member gets notified of a possible break-in, they can turn on my camera and remote control my motion to see and hear what's going on. My charging port is at my back, so I can watch the house even when I'm charging.

## Innovative Human-Robot Interaction

My family can give directions and interact with me in several ways. I am Alexa-enabled and react when hearing simple voice commands. Just ask, "Alexa, turn on Trifo" and I will get to work. When my family is away from home, they can speak and listen to other family members, pets, or even intruders when connected through the Trifo Home App.

## Powerful Cleaning

My optimized vacuum fan creates up to 3,000 Pa of suction - perfect for crumbs, sand, pet hair, and more. My larger main brush and six-claw side brush make sure I reach deep into every corner of our home. My larger dustbin and washable primary filter make it easier to maintain my love of cleaning.

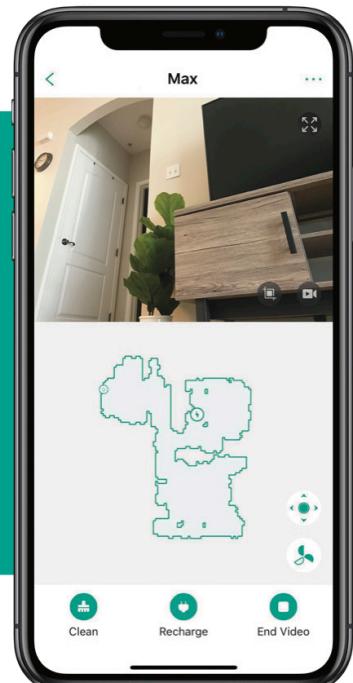

## Long-lasting Battery

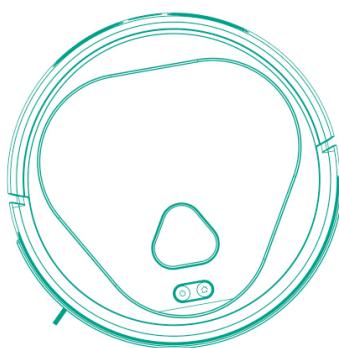

My 5,200 mAh battery keeps me going up to 120 minutes, and I even have a USB charger on board so I can also charge a device. When I'm tired, I automatically return home to my charging base.

## Trifo Home App

You can control Max from anywhere. Program him remotely to schedule cleaning, view real-time maps, adjust suction levels, and more. You can even manually drive Max from your phone or tablet. The free app is available for download on the Apple App Store and Google Play.

 Trifo Home App

## Specifications\*:

Package Dimensions	15.2 x 17.2 x 4.7 in (385 x 438 x 120 mm)
Robot Dimensions	14.2 in (360 mm) diameter, 3.3 in (84 mm) height
Charging Base Dimensions	5.5 x 5.5 x 2.8 in (140 x 140 x 72 mm)
Package Weight	12.1 lbs (5.5 kg)
Robot Weight	7.7 lbs (3.5 kg)
Suction Power	3,000 Pa
Dustbin Capacity	600 ml
Battery Capacity	5,200 mAh
Charge Time	180 mins
Runtime	120 mins
Noise	70 dB
Operating Voltage	14.4 V

In the box: Max Home Surveillance Robot Vacuum, Charging Base, Power Adapter, and User Manual
